Hardware: Personal Computer with INTEL® Pentium ® IV processor - Pentium ® 4 (recommendable), 256Mb RAM - 500Mb free spaces on Hard Disk (minimum) , video resolution 1024x768 with 16,8 millions of colours. Parallel Port or USB for hardlock key.

Software:

The supported Operative Systems are:

- Windows XP Home/Professional service pack 1 or more
- Windows VISTA
- Windows 7

Languages: Italian, French, English, German, Spanish , Portuguese, Russian, Polish, Romanian

IMPORTANT: It is absolutely necessary to close any opened application. So it is better to turn-off the computer and start again from the beginning, closing even antivirus, office toolbar, etc.

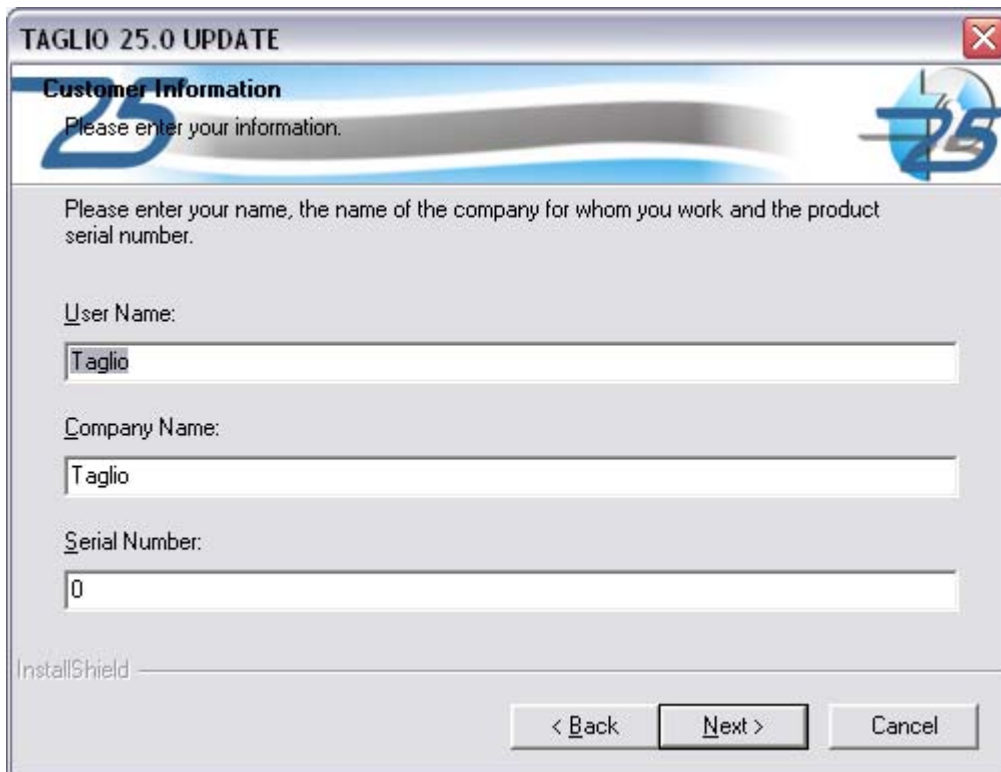

NEW INSTALLATION:

Insert the Protection Key into Parallel or USB port (in DEMO mode, ignore this step).

Automatic installation: introducing the CD, automatically starts the installation procedure of Taglio software.

If the Start-window don't appear in automatically when insert the Taglio's cd-rom go on "My Computer", select the Cd Rom that contain the installation and run the program "SetUp.exe".

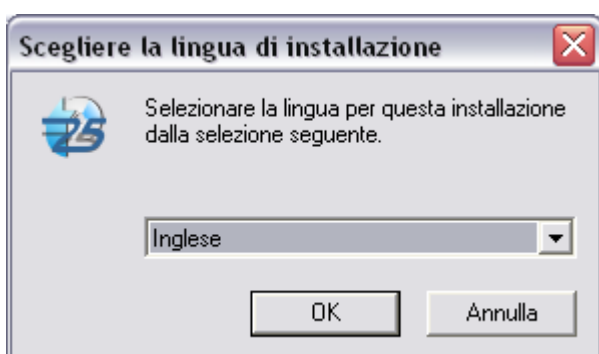

Select the language and click OK

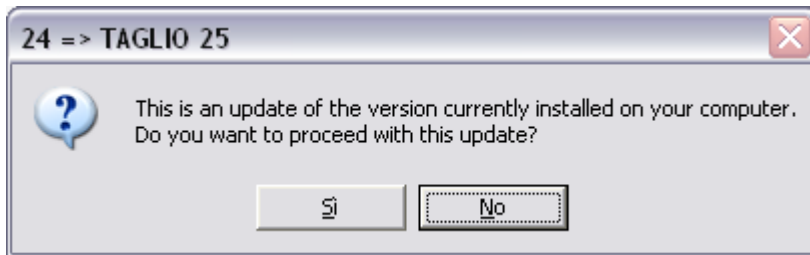

Insert in the "Serial Number" the number of your protection Key. If don't accept the serial number insert the "0" (zero) execute all the installation process in "demo mode" and when have finish contact the Taglio Support to activate your protection key.

UPDATE FROM AN OLD VERSION TO 25

Select the language and click OK

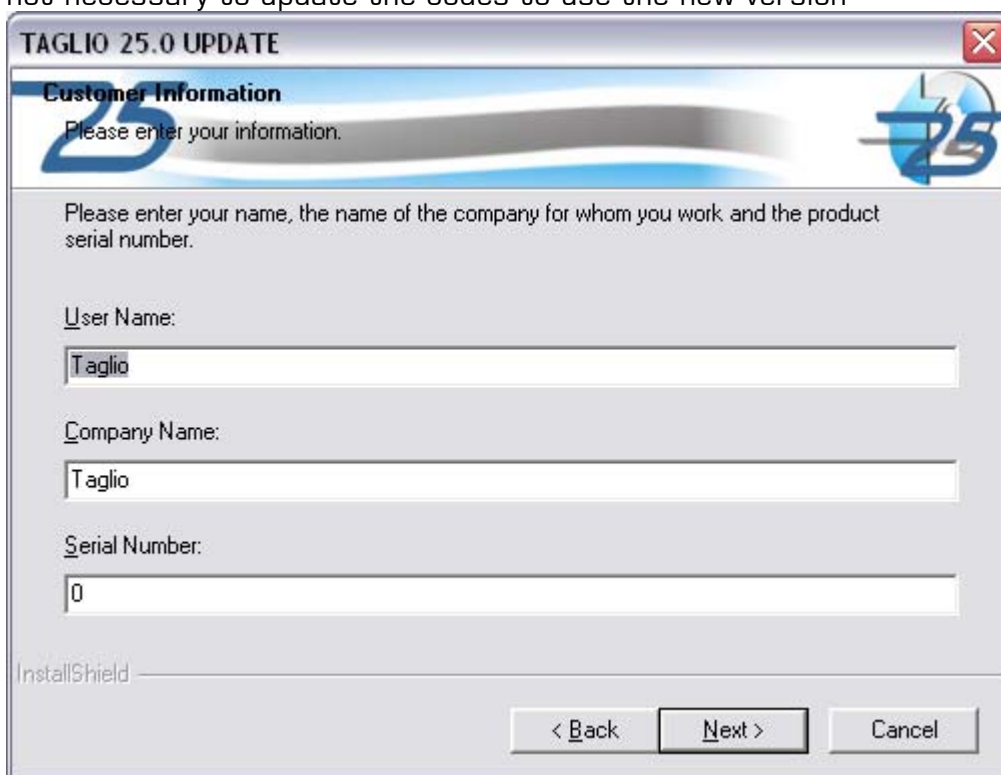

After confirming the selection, it will appear the window to choose between updating the old version or installing the new version in a new directory

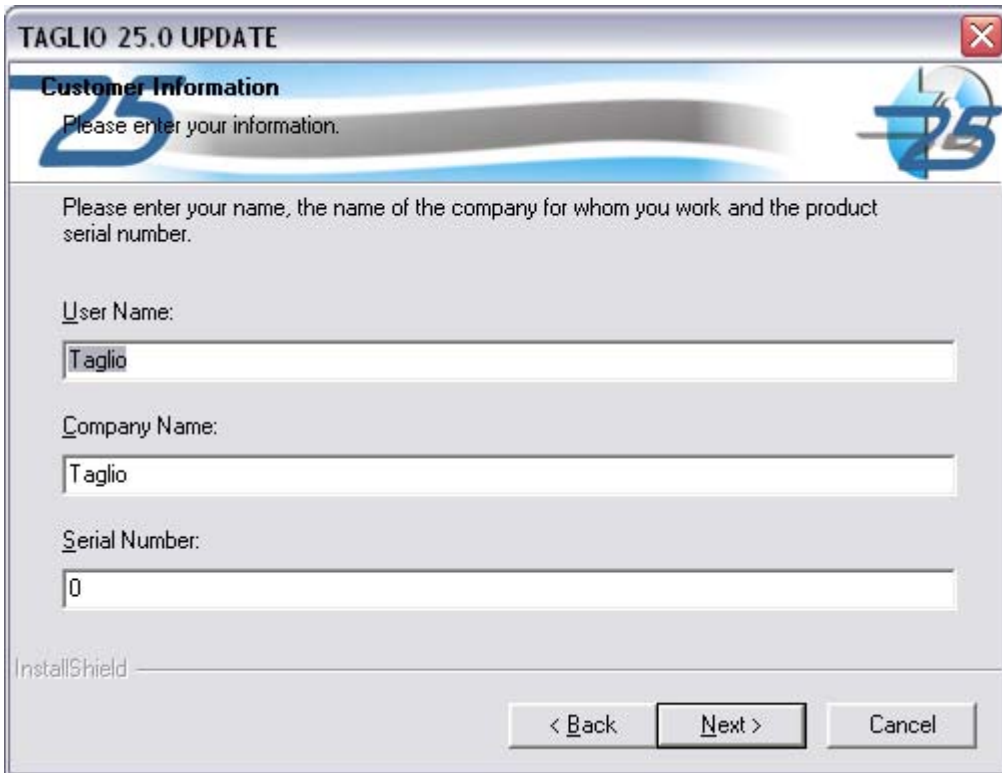

Clicking **YES** (update) it will appear a window with user's informations and the old Version's serial number

The installation's process automatically retrieves the codes for the new version, so it's not necessary to update the codes to use the new version

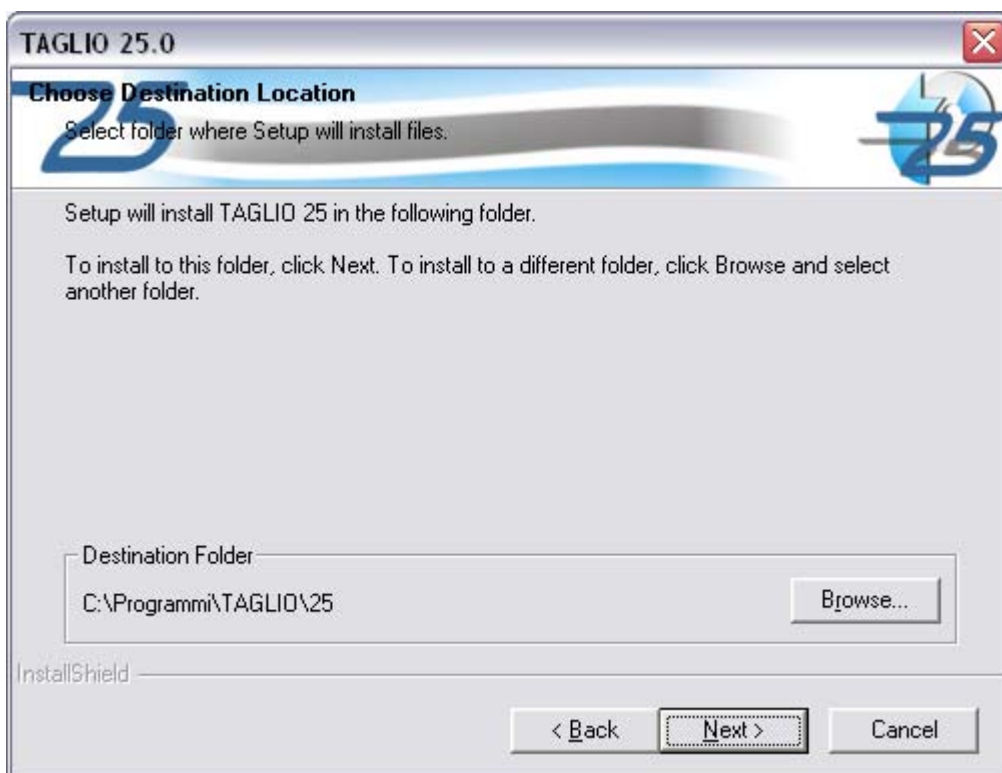

Press **Next** to complete the installation proces.

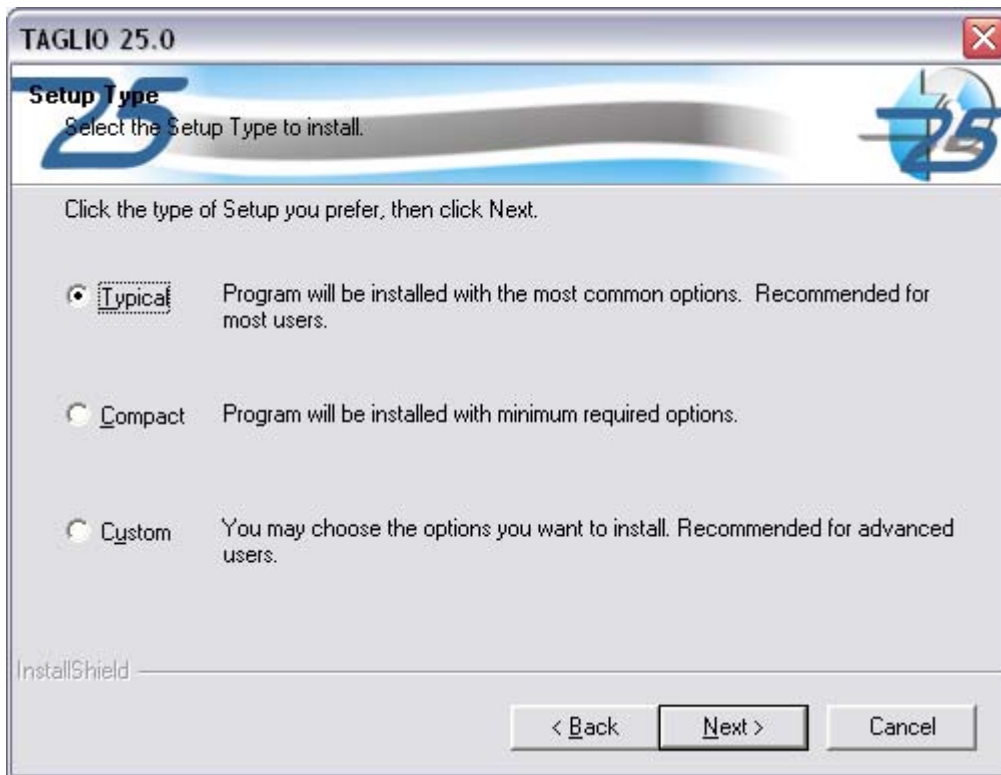

Clicking **NO** the installation **will be executed in a new directory (24)**, leaving the old version untouched, and it will appear the following window

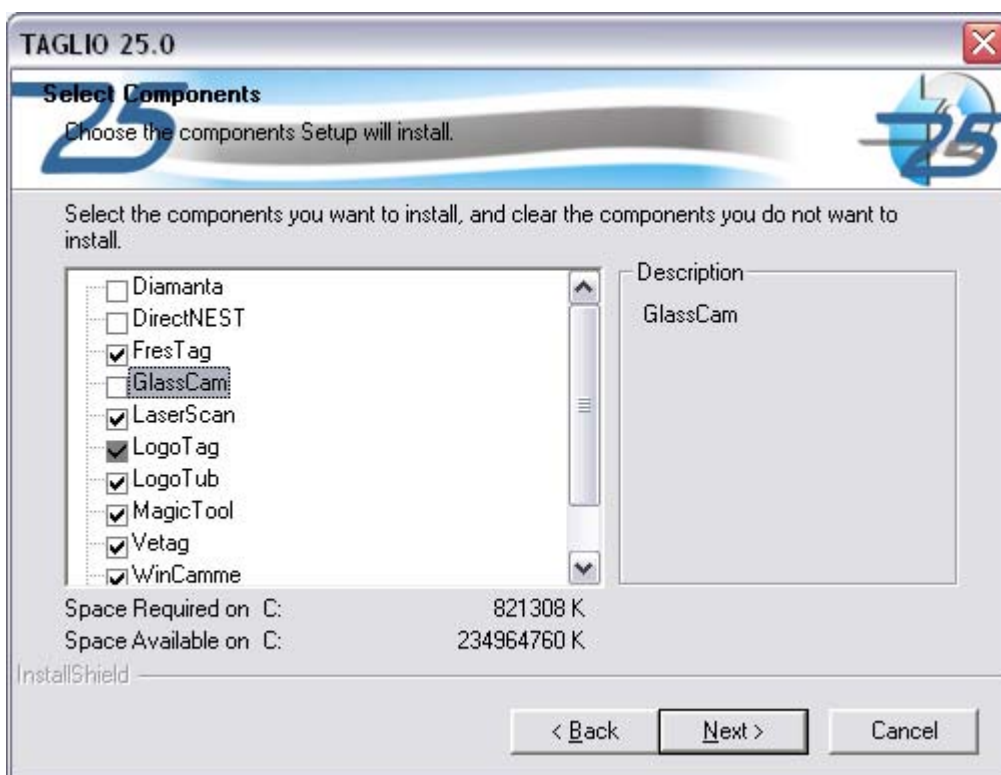

Insert in the "Serial Number" the number of your protection Key. If don't accept the serial number insert the "0" (zero) execute all the installation process in "demo mode" and when have finish contact Taglio Support for obtain the code of your protection key.

Selecting **Typical**, **ALL** the softwares will be installed.

Select **Custom** to choose the software to install

For any type of problem about the installation contact the Taglio Technical Support at the e-mail address: support@taglio.it or telephone at our number +39 0173619877
